

Office of the State Fire Marshal

2000 Annual Report

This public document was published at a cost of \$1.85 per copy. This document was published by the Office of the State Fire Marshal to inform State Government and the general public of the agency's activities for the 1999-2000 fiscal year. This material was printed in accordance with standards for printing by state agencies established pursuant to R.S. 43:31

2000 ANNUAL REPORT

INSIDE THIS ISSUE:

<i>Fire Statistics</i>	4-7
<i>Reporting Fire Depts.</i>	8-13
<i>Non-reporting Fire Depts.</i>	14-19
<i>Plan Review</i>	20-21
<i>Inspections</i>	22
<i>Investigations</i>	23
<i>Licensing</i>	24
<i>Health Care</i>	25
<i>Mechanical Safety</i>	26
<i>Manufactured Housing</i>	27
<i>Fire Educ./Information</i>	28
<i>FEMA Grant</i>	29-31
<i>Contact Information</i>	32

LETTER FROM THE FIRE MARSHAL

Our Mission Statement: To protect life and property from the hazards of fire or explosion, to ensure the safety of our citizens in the constructed environment, to provide equal access to disabled individuals and promote the efficient use of energy in commercial buildings.

“It’s a New Day in Louisiana” and every day is a new day at the Fire Marshal’s office. I am honored to be your State Fire Marshal and I want you to know that I am totally dedicated to you; the Fire Service, the Citizens of this State and to the Fire Marshal’s office. The Fire Marshal’s office is a statewide fire prevention bureau and regulatory authority. However, I have strived to make my office a resource and service agency as well. During my tenure as State Fire Marshal, I have placed a high priority on Public Safety Education, Fire Code Development, Fire Code Enforcement and Service to the Public.

My mission and objective for my office is to protect people, their property and the environment from fire. To reach this goal, my office has been and continues to be reorganized to improve efficiency, provide better service and foster economic growth. I have placed qualified people in strategic positions, mandated credibility and accountability of my staff and developed strong working relationships with the people we serve. However to be the best agency possible, I need your help. I need you as a partner in developing strategies to change people’s attitudes about fire. Carelessness and complacency are major contributors to the fire problem. No one believes that fire will strike them. Changing people’s attitudes and actions can save lives and prevent injuries due to fire. Together we will be successful.

I hope you find our 2000 annual report to be a valuable tool for managing, planning, education and prevention at the state, parish and local level. This second report highlights area’s of concern to the fire service and citizens of Louisiana as well as reflects the accomplishments of my office over the last year. Please call or write my office for suggestions or additional information. The State Fire Marshal’s office and staff are committed to reaching the goals stated herein and better serving the citizens and fire service of this state.

Sincerely,

V.J. Bella, State Fire Marshal

FIRE STATISTICS

In the year 2000, we saw an increase in total fires but still a significant decrease in structure fires. This is an encouraging figure!

*The most current national statistics are 1998

FIRE STATISTICS

2000 FIRES BY TYPE

STRUCTURE FIRES BY PROPERTY TYPE

FIRE DOLLAR LOSS BY PROPERTY TYPE

Last year there were 119 fires caused by fireworks. These fires caused \$124 thousand dollars of property damage.

STATISTICS CONTINUED

AREA OF FIRE ORIGIN IN RESIDENTIAL PROPERTIES

Residential fires continue to be the majority of all structure fires. However, industry and business generally incur a higher dollar loss figure.

SMOKE DETECTOR PRESENCE

PERCENT OF DEATHS AND INJURIES BASED ON SMOKE DETECTOR PRESENCE

STATISTICS CONTINUED

AREA OF FIRE ORIGIN IN VEHICLES

The third largest number of fires occur in vehicles. Fire awareness should be maintained as we drive, and not just in our homes and our workplaces.

FIRES BY AUTOMOBILE MAKE

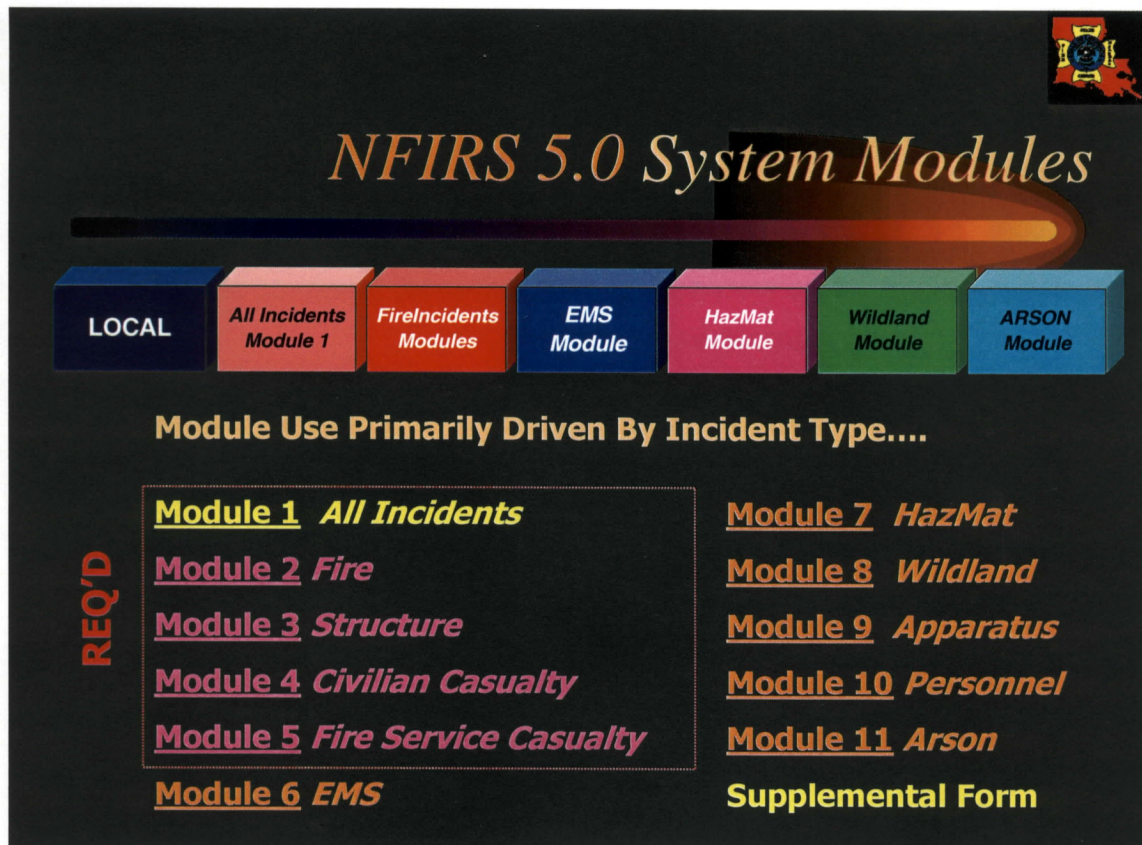

RECOGNITION FOR FIRE DEPARTMENTS REPORTING FIRE DATA

The Louisiana State Fire Marshal's Office would like to take the opportunity to thank those fire departments that submitted fire reports this past year. This data will allow us to better understand and effectively control the fire problem in the state. These reports provide very useful information for tracking fire trends in the state and developing fire safety education programs. However, we need all fire departments to report to have the most complete and accurate information regarding the fire problem in Louisiana. Please encourage any neighboring departments not currently reporting to participate in the LFIR program.

Additionally, this office strives to be the most progressive and efficient agency. To this end, a computer based reporting system was implemented this year. Staff members have taken an active role on the national level in developing and testing the United States Fire Administration's computer program, NFIRS 5.0. A current list of vendors offering NFIRS 5.0 software is on our website at www.dps.state.la.us/sfm/lfirs.htm.

The following tables indicate which departments reported and which departments did not report for the year 2000. For your convenience, the fire departments are listed by parishes.

Once again, we would like to thank all of the fire departments that did report and any other fire departments that will report in the future.

PLAN REVIEW SECTION

FY 2000 - 2001 SFM PLAN REVIEW STATISTICS

This fiscal year the Plan Review Section did 9,771 Architectural Reviews, 4,050 Fire Alarm Reviews, 1,481 Hood Reviews, 2,134 Sprinkler Reviews, & 286 Tank Reviews. They also processed 3,306 Exemption Requests. The value of all projects reviewed by this section totaled \$4,795,775,879 dollars.

3,326 TOTAL NUMBER OF EXEMPTION REQUESTS

ARCHITECTURAL REVIEWS

PLAN REVIEW SECTION

HOOD SUPPRESSION REVIEWS

SPRINKLER SYSTEM REVIEWS

FIRE ALARM REVIEWS

Historically, architectural & engineering solutions to promote life safety in buildings are formulated to overcome adverse and catastrophic events. Newly created safeguards that help us cope with our day to day routines give us peace of mind in knowing that our buildings are as safe as can be.

INSPECTIONS SECTION

The Inspections Section (Fire and Safety) is responsible for conducting life safety code inspections of all buildings except one and two family residences and Health Care facilities. Effective July 1, 2001 inspections of new construction are conducted utilizing the 2000 edition of NFPA 101 Life Safety Code and referenced NFPA standards. Additionally, other codes and standards used are Southern Standard Building Code for high-rise buildings, Americans with Disabilities Act Accessibility Guidelines (ADAAG) and the State Fire Marshal Act. Inspections of existing buildings are conducted utilizing the edition of the Life Safety Code that was adopted by the state at the time that the building was constructed. For example: if a building was constructed in 1970, the inspection would be conducted in accordance with the requirements as set forth in the 1967 Life Safety Code.

Accomplishments:

1) District Inspections Section Reorganized

During the last fiscal year, St. Tammany and Washington parishes were reassigned to the New Orleans District. Inspector territories were divided by parish and then by zip code within each parish, allowing Supervisors the ability to assign an equal workload for inspectors.

2) Education and Training

During the last fiscal year, district inspectors averaged 227 hours of training. Classes included subjects such as Plan Review Reading, Fire Alarm Systems, NFPA 101, Hazardous Materials, Fire Inspector 1, Firestopping, Automatic Sprinkler Systems and Hood Suppression Systems. Additional training also occurred in the district offices and in the field by Supervisors and Assistant Supervisors.

3) Quality Control

Two new Assistant Supervisors were added in the New Orleans District Office. Supervisors and Assistant Supervisors are now in the field conducting quality control inspections and training.

4) Inspections – Fiscal Year 2000-2001

Inspections and re-inspections	75,643
Schools	14,870
Detention	4,539
Day Care Centers	5,007
Universities	2,444
Family Child Day Care Homes	10,772.

5) Family Child Day Care Home Program

A power-point presentation was made available and now appears on the websites of the State Fire Marshal and the Department Of Education. The power-point presentation details a variety of information such as placement of smoke detectors, proper use of a fire extinguisher, the hazards of children playing with matches and many more safety tips for family child day care homes.

Integrity of firewalls is critical to preventing the spread of flames and smoke in the event of a fire.

INVESTIGATION/ARSON SECTION

Accomplishments for the Year

Implemented a visual tracking system to compile the section's statistics. Total number of fires for each parish, total number of arrests, and total fatalities are a few of these statistics. The new database established last year for tracking arson cases has resulted in a substantial decrease in the number of active open cases.

Reduced response time to fire scenes due to reorganized regions and utilizing a team approach to investigating large and complicated suspected arson fires.

Continued specialized training to better determine cause and origin of fires and to ensure quality of investigations.

Provided training to local fire departments and inspectors from the Inspections Section. This will enable these individuals to assist the Arson section in determining cause and origin of fires.

Continued to use the Arson Command vehicle at many of the major commercial fires around the state. In addition, it has been used to help train and support several of the newly formed arson task forces now in place.

Worked closely with various fire protection district K-9 units in fire scene investigations. St. Tammany Fire District 12, Alexandria Fire Department and the Houma Fire Department have assisted the section during the past year.

Made one arrest of a suspected church arsonist as a result of working with federal (ATF) and local authorities.

Statistics for the Year

656 Total fires investigated.

167 Determined to be non-incendiary.

489 Determined to be suspicious in nature and considered incendiary.

88 Cases have been closed by arrest and exceptional clearance.
(Once an arrest is made, the case is turned over to local district attorneys for prosecution.)

60 Fatalities.

FIREWORKS SECTION

The office regulates both the retail sale of fireworks and public firework displays. Retail sales are regulated by the Mechanical Safety Section and the public displays by the Arson Section.

Regulation Statistics:

Type	Permits Issued	Inspections/Re-inspections	Fees Collected
Firework Stands	840	846	\$123,287
Displays	51	90	\$510

Fireworks Statistics:

# of Fires caused by Fireworks	Dollar Loss	Deaths	Injuries
119	\$124,595	0	1

April 01	488	4687
May 01	534	5221
June 01	990	6211

*NOTE: The section's total number of inspections conducted is lower than expected for this fiscal year. Our New Orleans position was vacant for eight (8) months. We have three (3) inspectors who have transferred into this section which had to be trained, tested and certified in the federal survey process.

All of the inspector's have been issued laptop computers. We are continuing to provide training on the use of the SMART system and the Federal ASPEN program. Due to inspector's learning the use and operation of the laptops, inspection and office time has increased.

This section hosted a Life Safety Code Surveyor Training Conference in New Orleans, LA during March 2001 for the Southern Consortium of H.C.F.A. Life Safety Code Specialists representing thirteen (13) states attended this training provided by H.C.F.A. personnel.

All section personnel continued to attend tri-annual training sessions with DHH. The section Supervisor met monthly with the Louisiana Nursing Home Association (LNHA) liaison committee and DHH personnel. The Committee meets to discuss and address problems found during the survey process.

Quality assurance inspections have continued to be conducted by the Supervisor to as sure consistent and quality inspections.

Emergency Assistance Vehicles at the Baton Rouge General Emergency Room

MECHANICAL SAFETY SECTION

The Mechanical Safety section is comprised of two sections, the Boiler Section and the Amusement Section. The Boiler Section is responsible for the proper construction, installation, repair, operation, and safety of the boilers in this state. The Amusement Section is responsible for establishing standards for the installation, repair, use, operation and inspection of amusement attractions and rides for the protection of the public. This section also regulates the retail fireworks industry.

Boiler Section

The section conducted 14,755 inspections for this year. This total is approximately 3000 more inspections than last year. Of the total inspections conducted, 15% were found to have at least one Code violation in need of repair. These were found before they manifested into possible catastrophic failure and loss of life.

The Section issued 160 inspector commissions. These commissions granted insurance inspectors the authority to inspect boilers insured by their company. Additionally, the section issued 111 boiler installer licenses. The total money collected for the year was \$853,864.

Amusement Section

The section conducted a total of 5992 inspections this fiscal year. This total includes amusement and firework inspections. The Section issued 840 licenses to retail fireworks stands. Additionally, 22 state commissions were issued to third party amusement inspectors. These inspectors had to meet National Association of Amusement Ride Safety Officials (NAARSO) requirements. A total of \$285,656 was collected for the fiscal year.

Accomplishments for the year;

- The section performed 52 ASME/National Board "Shop Reviews for Authority to Manufacture or Repair."
- The section provided approximately 1400 hours of training to the staff.
- Eight inspectors in the section obtained Fire Inspector I certification.
- Four inspectors in the section obtained the National Association of Amusement Ride Officials Certification.
- Ten inspectors in the section were certified for the National Board Certification to inspect Boilers and Pressure Vessels.
- The section was instrumental in developing an electronic inspection reporting system for boilers that will be used by numerous states and Canadian Provinces.

Totals:	10,057	\$233,395.25

FIRE EDUCATION SECTION

On January 2001, Jan Coussens assumed the position of Public Education Director. The position was made full time in May. Covering all areas of public risk, a broad effort is being made to reach all age groups through educational curriculums in the schools, daycares, homes, and workplaces. Web site and e-mail access are also available to the public.

Risk Watch, NFPA's comprehensive 8 risk area curriculum, is being taught in 5 University-based laboratory schools, Hammond area elementary schools, and is slated to be used this school year at selected schools in St. Tammany, Orleans and Jefferson parishes. Inroads are also being made into the daycare arena, both in the University and private sector. In conjunction with an NFPA grant program, a Risk Watch Champion Coalition Team has been formed and 5 communities are slated to be using the Risk Watch curriculum in Pre-K through 8th grades during the 2002-03 school year.

Fire Safety and Fall Prevention for seniors is also being implemented. Efforts are being made to reach seniors through programs at the Council on Aging centers with planned expansion into adult daycare and assisted living centers.

State Fire Marshal V. J. Bella unveiled a unique mobile teaching tool, the Sprinkler System Demonstration Trailer ("SSDT"), at the 3-day sprinkler system training seminar held at the LSU Fire and Emergency Training Institute April 3-5, 2001. The trailer was created and donated to the Office of State Fire Marshal by the Louisiana Fire Sprinkler Association. "We wanted a teaching tool that could provide hands-on training for our inspectors and fire departments, as well as educate Louisiana's citizens to the advantages of sprinkler systems", commented Bella. "We approached the Louisiana Fire Sprinkler Association with a vision to help create this teaching aid". Don Albares, Past-President of the Louisiana Fire Sprinkler Association told Bella that the Association "shared the same vision".

This is our new sprinkler demonstration trailer in action.

FIRE INFORMATION SECTION

This year has been a very busy year for this section. We have converted the Louisiana Fire Incident Reporting System (LFIRS) to version 5.0 and implementing an electronic reporting system. Fire departments have been asked to convert their systems from paper to computer. This will greatly increase the efficiency of the LFIRS program and provide more accurate and accessible fire statistical data. This year should see many additional fire departments moving to computer based reporting and we offer our services to aid them in any way possible. If you would like to host a training class in your area, feel free to contact Nathan McCallum at either: nmccallu@dps.state.la.us or via the telephone at 800-256-5452.

This section has also created our newly updated webpage located at: www.dps.state.la.us/sfm. If you have any suggestions or comments, please feel free to contact Nathan at the above email address or phone number. Additionally, this section is also responsible for the creation of the annual reports that the office publishes.

FIRE GRANT INFORMATION

The following Fire Departments are departments who applied for and were awarded grants through the United States Fire Administration's "Assistance to Fire Fighters" program. We would like to congratulate these departments and hope to see this list grow in the future.

Name	Location	Round Awarded	Award Amount	Reason
Rapides Parish Fire Dist. #3	Tioga	01	\$12,213.00	Training
Springhill Fire Dist. #11	Springhill	01	\$19,414.00	Training
City of Natchitoches Fire Dept.	Natchitoches	01	\$127,980.00	Training
		01 Total	\$159,607.00	
Westlake Fire Dept.	Westlake	02	\$13,365.00	Training

THE ENEMY

*I am more powerful than the combined armies of the world.
I have destroyed more men, women and children than all
the wars of all nations. I massacre thousands of people
every year. I am more deadly than bullets, and I have
wrecked more homes than the mightiest guns.*

*In the United States alone, I steal Billions of dollars each
year. I spare no one and I find my victims among the rich
and the poor alike, the young and old, and the strong and
the weak. Widows know me to their everlasting sorrow. I
loom up in such proportions that I cast my shadow over
every field of labor*

*I lurk in unseen places and do most of my work silently.
You are warned against me, yet heed me not. I am
relentless, merciless, and cruel. I am everywhere, in the
home, in the schools, in the factory, on land, in the air, and
on the sea.*

*I bring sickness, degradation and death, yet few seek me out
to destroy me. I crush, maim, I devastate- I will give you
nothing and will rob you of all you have.*

I AM YOUR WORST ENEMY----

I AM RAMPANT FIRE.
